DOCUMENT SHREDDERS

Keeps the chaos
under control.

 **DAHLE**[®]

Controlled
by chaos?

Keeps the chaos
under control.

For less stress at the office –
**our new Deskside document
shredders**

When the phone won't stop ringing, your to-do list is endless and stacks of paper are piling up on your desk waiting to be shredded, chaos takes over.

But don't despair – our new Deskside document shredders are here to help! Available in three different security levels, they put an end to paper chaos.

OUR DESKSIDE SHREDDERS CUT DOWN ON CHAOS.

When stacks of old files pile up in **small teams** or offices with just a **few workstations**, Deskside document shredders are the perfect solution. Their **40-litre** collection bin can hold up to 1,000 sheets, depending on the device's security level, and even handles paper by the stack. Extra-small particles make optimal use of the available container volume – so you can stay calm in the face of chaos.

Always the right choice

The correct security level for your needs: P-2 to P-5

Extra stress-free

Extra quiet, extra small particles, extra high sheet capacity for even greater ease of use

For an entire working lifetime

35-year guarantee on the cutting rollers so you can relax even more

FIND THE RIGHT SECURITY LEVEL!

Choosing the right security level is an important aspect of buying a document shredder. After all, destroying data is subject to legal regulations.

If you're not sure which security level is appropriate for your data protection requirements, **ISO/IEC 21964 (DIN 66399)** defines seven security levels for destroying data using document shredders. The rule of thumb is: **the higher the number following the P, the smaller the shredded particles** and the less likely it is that the information can be recovered. The appropriate security level is determined by the content of the data you want to destroy: the more sensitive the content, the higher the recommended security level.

DAHLE Deskside document shredders are available in security levels P-2 to P-5 – so you can choose the right machine for your needs and your workplace.

More information on security levels is available at:
www.novus-dahle.com

DAHLE DESKSIDE 204P

WITH SECURITY LEVEL P-2

At security level P-2, sheets of paper are cut into multiple strips. This type of cut is called strip cut. The destroyed data can only be reproduced in a time-consuming process that requires tools. This security level is not appropriate for GDPR-compliant data destruction; only use it for documents with internal data you want to render unreadable, such as packing lists, general instructions, blank forms etc. If security level P-2 is sufficient for your paper chaos, find out more about the DAHLE Deskside 204P.

- High-performance document shredder with 40 l waste collection volume and security level P-2
- Extra high sheet capacity: shreds up to 29 sheets of paper (80 gsm) at a time
- Trouble-free operation: automatic paper reverse function clears excess paper
- High-quality solid steel cutting rollers with 35-year guarantee
- Shreds paper, CDs, DVDs and cards at security levels O-2/T-2/E-2
- Automatically powers down if not used for 10 minutes
- Pull-out waste container
- Especially quiet

Product name	DAHLE Deskside 204P
Article name	52204-16985
Security levels	P-2 / O-2 / T-2 / E-2
Type of shredding	Strip cut
Strip width	4
Waste collection volume (in l)	40
Sheet capacity (80g/sqm)*	25 - 29 sheets
Noise level when idle (db)	60
CDs/DVDs	✓
Cards	✓
Dimensions H x W x D (mm)	696 x 425 x 351

Security Level
P-2

DAHLE DESKSIDE 404P

WITH SECURITY LEVEL P-4

Shredders with security level P-4 slice sheets of paper both vertically and horizontally in what is known as particle cut, creating a large amount of small particles measuring no more than 160 mm². At this particle size, the data can only be reproduced using custom devices or tools that are not usually commercially available. Security level P-4 is suitable for destroying personal data, such as records and correspondence containing names or address data, as well as any documents with information such as e-mail addresses etc. If you regularly destroy data at security level P-4, find out more about the DAHLE Deskside 404P.

- High sheet capacity: shreds up to 21 sheets of paper (80 gsm) at a time
- Shreds paper at security level P-4
- Extra small particles (4 x 35 mm) mean you rarely have to empty the collection bin
- High-quality MHP cutting rollers with 35-year guarantee
- Oil-free operation
- Especially quiet
- Shreds paper, CDs, DVDs and cards at security levels F-1 / O-3 / T-4 / E-3
- Trouble-free operation: automatic paper reverse function clears excess paper
- Pull-out waste container

Product name	DAHLE Deskside 404P
Article name	52214-16989
Security levels	P-4 / F-1 / O-3 / T-4 / E-3
Type of shredding	cross cut
Particle size (in mm)	4 x 35
Waste collection volume (in l)	40
Sheet capacity (80g/sqm)*	19 - 21 sheets
Noise level when idle (db)	60
CDs/DVDs	✓
Cards	✓
Dimensions H x W x D (mm)	696 x 425 x 351

Security Level
P-4

DAHLE DESKSIDE 504P

WITH SECURITY LEVEL P-5

Security level P-5 also uses particle cut, but the particles are significantly smaller than at security level P-4: the maximum particle size is just 30 mm², making it highly unlikely that the destroyed data can be reproduced with current technology. Documents that must be shredded at this security level are even more sensitive and referred to as “confidential data”. They include any documents that contain confidential personal information, such as medical reports, HR documents etc. If your paper chaos requires especially secure document shredding at security level P-5, find out more about the DAHLE Deskside 504P.

- High sheet capacity: can shred up to 15 sheets of paper (80 gsm) at a time
- High-quality MHP cutting rollers with 35-year guarantee
- Especially quiet
- Automatically powers down if not used for 10 minutes
- Powerful engine for even longer run times
- Trouble-free operation: automatic paper reverse function clears excess paper
- Pull-out waste container
- Shreds paper at security level P-5
- High-performance document shredder with 40 l waste collection volume and security level P-5

Product name	DAHLE Deskside 504P
Article name	52222-17004
Security levels	P-5 / F-2 / T-5 / E-4
Type of shredding	cross cut
Particle size (in mm)	2 x 15
Waste collection volume (in l)	40
Sheet capacity (80g/sqm)*	13 - 15 sheets
Noise level when idle (db)	60
CDs/DVDs	-
Cards	✓
Dimensions H x W x D (mm)	696 x 425 x 351
Suitable accessories	Dahle oil paper 20795

Security Level
P-5

* Maximum number of DIN A4 sheets that can be shredded in a single load under the following conditions: new cutting rollers (oiled if necessary), cold motor, power supply with rated voltage and rated frequency (230V/50Hz; 120V/60Hz). Sheet capacity may be lower and operating noise higher under different conditions. Sheet capacity may also vary due to sheet characteristics and paper feed.
