office and at the
point of sale

Hygiene protection

More space system | POS Solutions

Hygiene protection in accordance with the latest standards

With a pandemic on the rise, there is an even higher risk of infection at work. In such times, employers are legally obliged to take special hygiene precautions.

With our hygiene solutions for office spaces and sales counters **Novus Office Protect** and **Novus POS Protect**, you can ensure optimal hygiene protection for your employees and customers in offices and sales areas, in meeting rooms, at counters with customer traffic and in traditional retail stores.

Novus offers high-quality products to protect against coughing and sneezing that can be integrated as a long-term solution. They prevent illness over the long term and promote a healthy workplace.

Choose from various high-quality hygiene solutions for single, double or consultant workstations. Our solutions for traditional retail stores and flexible acrylic glass partitions for computer workstations offer optimal hygiene protection:

- Protection against sneezing
- Protection against coughing
- Protection against droplets

All new **POS Protect** products can be easily integrated into your existing modular workstations. By choosing Novus Protect products, you ensure both safety and functionality. Novus offers high-quality products that can be integrated into your workstations as long-term solutions. We also offer you a five-year guarantee for our quality products.

Modular system for durable hygiene protection

Hygiene protection in accordance with the latest standards
Made in Germany

Premium materials like anodised aluminium and acrylic glass provide durable solutions and lasting protection.

Perfectly integrated!

The hygiene protection integrates perfectly with existing solutions. Novus has many years of experience with numerous office furnishing projects and offers a system of sophisticated and lasting solutions.

Unobtrusive!

Perfectly integrated to provide protection without disrupting the workflow. The acrylic glass panels are firmly attached to existing POS arms or to the office systems. They move with the user to offer consistent protection.
